

new appointment: **Barbican Centre Renewal**

A collaborative design team led by Allies and Morrison and Asif Khan Studio has been selected to deliver a multi-pound renewal of the Barbican Centre.

The project will preserve the iconic building's original architectural vision, while providing new opportunities for the Barbican's diverse community of partners, artists and audiences, and boosting the building's accessibility and environmental performance.

Our winning team, chosen from a five-team shortlist following an international open call, includes engineering and sustainability consultancy Buro Happold; heritage experts Alan Baxter Ltd; theatre, acoustic and digital consultancy Charcoalblue; landscape architects Hood Design Studio; lighting design agency les éclairieurs; and artistic advisors Isaac Julien and Nadia Fall.

Read more about the project on the Barbican's website [here](#).
